I. 1Q 2025 Highlight

Revenue

\$ 873MM

- 23% achievement ratio against FY2025 guidance
- Increase by \$50MM or 6% as compared to 1Q 2024

Net Income

\$ 55MM

- 20% achievement ratio against FY2025 guidance
- Decrease by \$6MM or 11% as compared to 1Q 2024

Adjusted EBITDA

\$ 81MM

· Almost the same as compared to 1Q 2024

Credit Rating (Fitch)

BBB/Stable

• Upgraded to BBB/Stable from BBB-/Positive

- Overall performance in 1Q 2025 was largely comparable to 1Q 2024 and in line with the expectation
- EPCI: Steady construction progress of Raia and Uaru EPCI projects. New contract award (Shell Gato do Mato)
- 0&M: Steady operating performance of the existing vessels. New contract award (Shell Gato do Mato)
- Charter: Stable earnings under long-term availability-based contracts

1Q 2025 Highlight – Topics

Shell New Project Award / ExxonMobil LNTP Contract / Malaysia Execution Center / Fitch Ratings Upgrade / New Technology Initiative

Shell Gato do Mato FPSO - Secured New EPCI and O&M Contract (March 2025)

- MODEC has been awarded the EPCI and O&M contracts by Shell, following the successful execution of the Front-End Engineering and Design ("FEED") contract, which was awarded in March 2024.
- The FPSO will be capable of 120,000 barrels of oil per day and will be moored at a water depth of approximately 2,000 meters. It would be the second unit to be delivered to Shell by MODEC.

| Client | Shell Brasil Petroleo Ltda |
|-----------|----------------------------|
| Contract | EPCI + 0&M (20 years) |
| First Oil | 2028 |
| Field | Gato do Mato Field |
| Country | Brazil |
| Status | Construction phase |

ExxonMobil Hammerhead FPSO - Secured New LNTP (April 2025)

- MODEC has been awarded a Limited Notice to Proceed ("LNTP") by ExxonMobil. The LNTP allows MODEC to start
 activities related to the FPSO design in two phases to ensure first oil by 2029.
- Phase One covers FEED, while Phase Two covers EPCI, which is subject to Final Investment Decision ("FID") by ExxonMobil. MODEC will also provide 0&M services for the FPSO.
- The FPSO will be capable of 150,000 barrels of oil per day and will be moored at a water depth of approximately 1,025 meters. It would be the second unit to be delivered to ExxonMobil by MODEC.

New Execution Center in Malaysia Officially Opens (April 2025)

- The official opening ceremony of the Kuala Lumpur Execution Center (Offshore Frontier Solutions Pte. Ltd. Malaysia, a MODEC group company), was successfully held on April 15, 2025. marking a significant milestone for MODEC to further strengthen its global EPCI capabilities.
- The center has employed nearly 200 Malaysian professionals, with plans to expand the workforce to over 800 employees in the coming years.

The Malaysia execution center will play a pivotal role in MODEC's global operations, focusing on:

- ✓ Supervising subcontracted detailed engineering activities
- Overseeing hull and module construction and integration at shipyards
- Managing offshore installation and commissioning activities

Fitch Upgrades MODEC Rating to "BBB", outlook Stable (April 2025)

• Fitch Ratings, one of the three major international rating agencies, has upgraded MODEC's rating to BBB/Stable.

| Nev | v Rating | BBB / Stable Outlook (upgraded on April 14, 2025) |
|------|------------------------------|---|
| | erpt from h Rating Report | "MODEC's upgrade reflects its improved financial profile, EBITDA growth, negative net debt, and ample financial flexibility. It has maintained steady backlog renewal with high credit quality partners, helping to mitigate MODEC's exposure to Brazil (BB/Stable). Additionally, MODEC benefits from a predictable cash flow profile, underpinned by USD denominated charter contracts with an average life of 12.6 years." |
| Prev | vious Rating | BBB- / Positive Outlook |

New Technology Development Initiative (February 2025)

- MODEC has initiated two new offshore technology developments for its FPSOs.
 - 1. Offshore carbon capture project study for an FPSO for the pilot plant deploying CycloneCC technology:
 - MODEC will perform engineering work to optimize CycloneCC, a unit well-suited to an offshore maritime environment with confined spaces, for a FPSO vessel.
 - 2. Solid Oxide Fuel Cells ("SOFC") study onboard the FPSO:
 - MODEC and Eld Energy will explore SOFC system onboard its FPSOs to develop highly efficient power plant being able to replace gas turbines.
- Execution of these projects will play a key role in advancing MODEC's efforts to minimize the CO2 emissions.

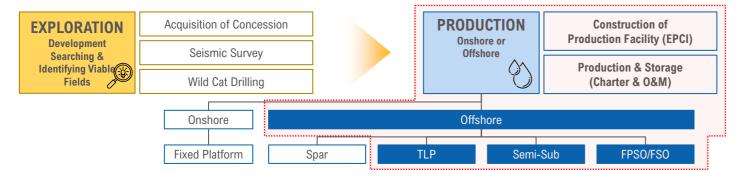

II. Financial Summary

Business Model Overview

A Leading Offshore Midstream Company with Long-Term, Contractual & Predictable Business Model

Founded in 1968, MODEC has established a strong presence in all major offshore oil & gas producing regions of the world, providing a reliable one-stop solution to its clients across EPCI, O&M and Charter Services MODEC's revenues of all three service segments are based on the fixed-amount long-term contracts with reputable counterparties and thus insulated from the general economic cycle or the volatility in the market

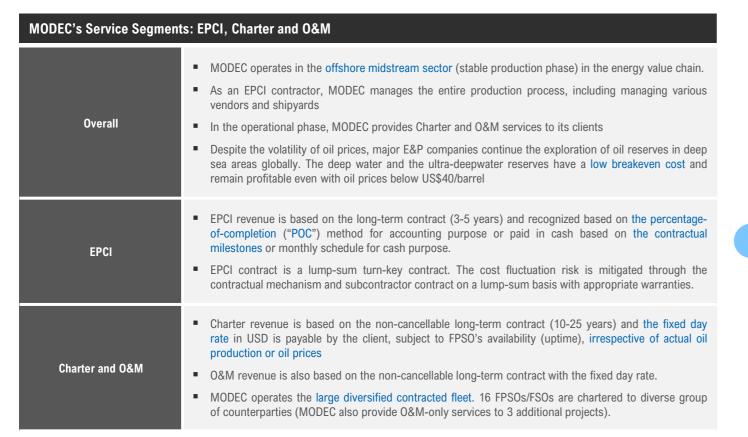

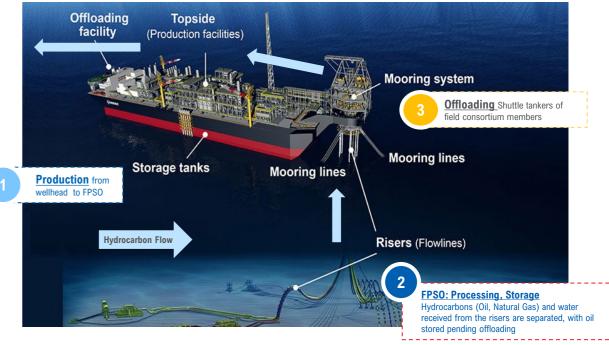

MC

MODEC Business Areas

- MODEC provides a reliable one-stop solution to international and national oil companies across EPCI, O&M and Charter services of FPSOs
- FPSO is an offshore midstream production/storage facility that is used to extract/transport, process and store deepwater hydrocarbons

High Backlog in EPCI and O&M Business

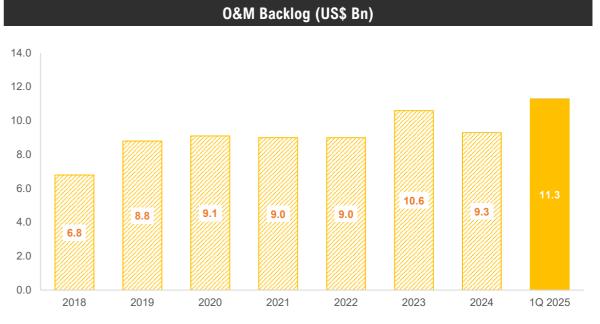

Backlog Overview

- EPCI backlog increased significantly in 1Q 2025 due to a large contract, "Shell Gato do Mato", awarded in March.
- FEED for ExxonMobil "Hammerhead" Project has commenced following the LNTP awarded in April.
 - The contract is a Limited Notice To Proceed ("LNTP") by ExxonMobil Guyana, pending necessary regulatory approval. Phase One encompasses FEED while Phase Two covers EPCI phase.
 - The LNTP allows MODEC to start FEED work to ensure the earliest possible project startup in 2029.
 - Subject to FID, MODEC will start EPCI phase. Modec will also provide O&M services. (pending FID, 1Q/2025 backlog does not include Hammerhead)
- O&M backlog also increased due to the award of Shell Gato do Mato contract and reached a historical high supported by long-term contracts.

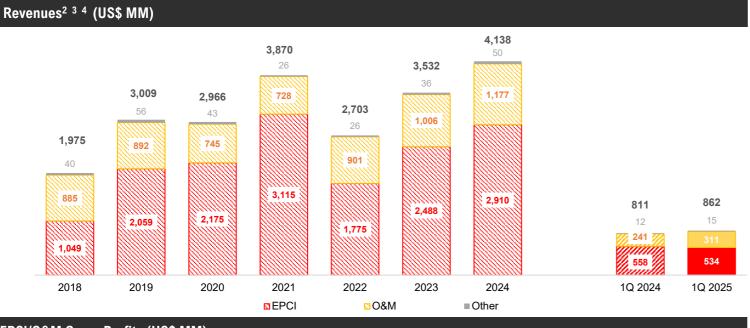

Significant improvement in EPCI / O&M Performance¹

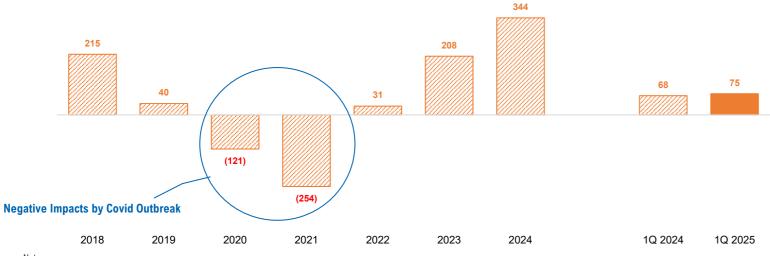

Higher Revenues in 1Q/2025 (+6%) over 1Q/2024

- EPCI revenues were slightly lower as compared to 1Q/2024 due to the lower revenues from the mature projects which were either completed (Sangomar; first oil in May '24), nearing completion (Bacalhau) or in the latter phase of the construction (Uaru). The lower revenues from those projects were partially offset by the higher revenues from Raia project.
- The lower EPCI revenues were more than offset by the higher O&M revenues, which reflected the higher revenues of West African O&M operations (*Sangomar*, *MV10*) and the steady performance of Brazilian O&M operations.

EPCI/O&M Gross Profits (US\$ MM)

Higher Gross Profits in 1Q/2025 (+10%) over 1Q/2024

- Slightly higher earnings reflect the steady performance of both EPCI and O&M operations.
- In EPCI operation, the existing construction projects made the steady progress.
- O&M segment benefitted from the continued steady performance of Brazilian operations and the improved performance of West African operations.

Note

- 1. Presented in accordance with JGAAP up to 2020 and thereafter IFRS.
- 2. EPCI revenues represent contract amount recognized in the relevant calendar year based on POC (percentage of completion) method. 0&M revenues represent contractual payments received under existing 0&M contracts in the relevant calendar year
- 3. Service Fee for the Charter Business is excluded.
- 4. USD/JPY conversion rate at the end of each year 2018 (111.02), 2019 (109.54), 2020 (103.50) from MODEC Audited Financial Statement.

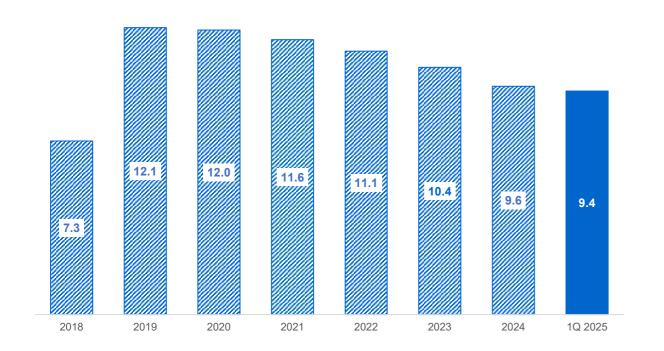

Predictable & Stable Charter Earnings under Long-Term Availability-based Contracts

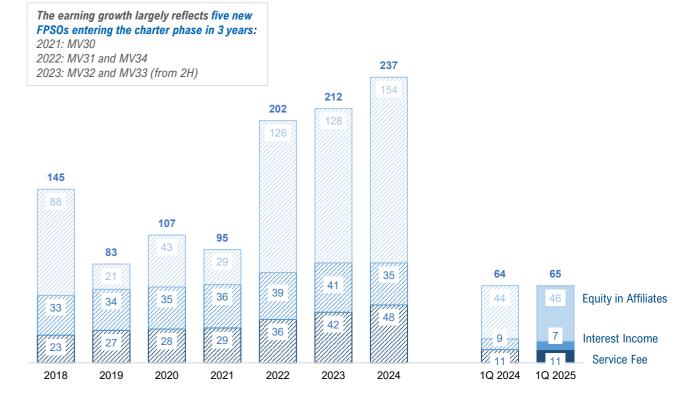

155 cumulative years of Charter contracts with 12.3-year remaining average life

- MODEC does not consolidate its minority stakes in the SPCs. MODEC's share of SPCs' net earnings are recognized under the equity method in the consolidated income statement
- SPCs are typically capitalized through a combination of (a) the equity investment and (b) the shareholders' subordinated loans from which MODEC receives the interest income
- SPCs also pays the fixed amount of the service fees to the sponsors as the sponsors are responsible for the management of SPCs

Charter Backlog (US\$ Bn)

Highlights

- Strong EBITDA growth, now exceeding the pre-Covid record.
- Profit improvement stems from the earning enhancement of all three service segments as well as the progress in clients / revenue diversification.
- Solid financial conditions maintained despite the difficult years of operations during Covid.
- Significant improvement in the financial metrics with the debt leverage below 2.0x.
- Successful diversification of funding sources allowed MODEC to weather the funding shortage during the difficult years.

- 1. Presented in accordance with JGAAP up to 2020 and thereafter IFRS
- 2. Minority interest: SOFEC (JV with Mitsui E&S until 2024), OFS (JV with TOYO from 2022) Adj EBITDA: Adjusted EBITDA before adjustments of the Unusual Items, specifically Covid-19 impact and Special Maintenance Campaign Total Debt: Include Borrowing (Current liability) and Bonds and Borrowing (Non-current liabilities) Net Debt: Total Debt minus Cash and Cash Equivalents

Capitalization: Sum of Total Debt and Equity

^{3.} Onerous contract reserves, which were established for three older FPSOs in Brazil, is calculated in the amount of present value of future expected NET cash flow from both O&M and Charter contracts. Please note that PV of negative expected cash flow from O&M exceed the positive net cash flow from the charter, thus established onerous contract reserve.
